Register, Login, Self-Enroll into Courses Instructions for Learners

Click CREATE NEW ACCOUNT button below this text. Follow the instructions to complete registration. You will receive an email, Click the link provided in the email to confirm your registration and you will be automatically logged in.

Self-Enroll into Course - When logged in, click the All courses button to view courses you can enroll in. Click on the course you want, enter the course, and scroll to the bottom and Click ENROL ME button. This will enroll you in the course and you will have access to course activities and resources. You can logout and then login using the details you provided during registration. My Courses button gives you courses you are enrolled in. For any queries, send us an email at: info@cesst.org.

Login Instructions for Lecturers

CREATE NEW ACCOUNT

4. Provide your **Age** and **Country**. Then click PROCEED. Provide your details and use correct Country so Moodle sets your time zone correctly.
5. Read through the **Privacy Policy** and click **NEXT** if you agree with the **Privacy Policy**.
6. Read through the **Cookie Policy** and click **NEXT** if you agree with the **Cookie Policy**.
7. AGREE to both the Cookie and Privacy policy by ticking the two boxes shown below then click NEXT.

Please refer to the full [Privacy Policy](#) if you would like to review the text.

I agree to the Privacy Policy

Cookie Policy

This is a Cookie Policy for The Focus on Africa Space Science and Technology for Future development (FastFuture) Learning Management System based on Moodle Content Management System. This policy highlights what cookies are and details how this website (hereafter referred to as "FastFuture") uses these cookies, how third parties we partner with may use these cookies, and your choices regarding cookies. This policy should be read with the accompanying Privacy Policy

FAST4Future may change this policy from time to time by updating this page. You should check this page regularly to ensure that you are happy with any changes.

What are Cookies?

Cookies are small files that request user for permission to reside on the user's computer. Once the user grants permission, a cookie tracks and keeps record of specific interactions between the user and this website, and in some cases, other websites to improve future interactions, offer convenient website visit and user experience.

How we use Cookies

Fast4Future uses cookies in line with the proper functioning of underlying Moodle content management system – including for example to assist in determining and identifying returning users, the type of content and sites the user interacts with, the duration a user spends at any given area of the site, and any specific functionalities that users invoke.

Third-Party Cookies

This Fast4Future Learning management system is based on the Moodle Content Management System thereby, in addition to our own cookies, it uses Moodle cookies for proper functioning.

Please refer to the full [Cookie Policy](#) if you would like to review the text.

I agree to the Cookie Policy

8. Provide New Account details. Note the rules for passwords given in the New Account form. Click **CREATE MY NEW ACCOUNT** button to create an account.
9. Moodle will send you an email to verify your account. Check the email you provided in step 8 above and click the link for account verification that is in the email.
10. You will be automatically logged in.

How to login

The steps given here assume you have an account and have verified the account. If you do not have an account, start with the steps given above on how to create an account.

1. Click the login button in the lms.cesst.org.
2. Input your username and password in the screenshot below.

5. To self-enroll in the Planetary Science Short Course, click **All courses**, then click **Planetary Science**, then click **enter this course**, scroll down and click **Enroll Me** as shown in the screenshot in the next page.

Planetary Geology

This course will provide the students with the basic knowledge of planetary geology with particular focus on Mars. The course is divided in 10 hours of theoretical lectures and 6 hours of laboratory activity:

- During the frontal lecture the students will acquire knowledge on the geology and geomorphology of Mars and they will enter the fascinating world of planetary exploration, discussing of past, ongoing and future missions. During this first part of the programme important concepts of astrobiology will be presented.
- During the laboratory (only for physical attendees) activities the students will learn how to produce a geological map of Mars starting from high resolution satellite images (HiRISE).

Teacher: Fulvio Franchi

Enrolled students: There are no students enrolled in this course.

Self enrolment (Student)

No enrolment key required.

How to Self-Enroll into Courses

1. See steps 3,4,5 and 6 under how to login.

How to Access Course Content

Your instructor(s) have added activities and resources to your course. To access these activities and resources, first you need to login and select the course under My Courses Link. A variety of activities and resources will appear either grouped by **week** or by **topic**. Some of the activities and resources you might find are listed below. Moodle has many activities and resources, and what appears in your course might vary from the list below. Use the list below as examples of activities and resources, but there are many more.

1. Lecture Notes
2. Virtual Online Lessons (Zoom links, Teams Links, Big Blue Button Links)
3. Discussion Forums
4. Assignments
